

# PEDIATRIC RESTRAINT SYSTEM FOR AMBULANCE STRETCHERS

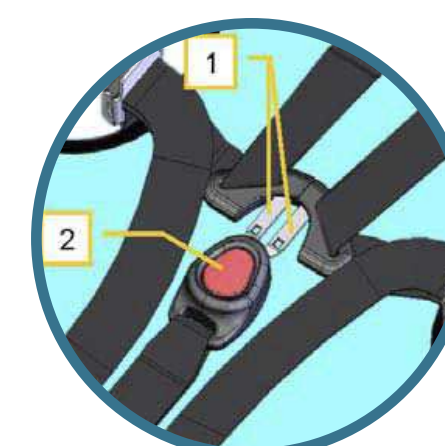

- The materials used for manufacture are resistant to bacteria, fungi and putrefaction. It's washable, waterproof and gasoline/oil resistant.
- Kidy Safe it's not affected by disinfectants (bleach, peroxide, etc).
- Mat is non-slip.
- The tensile strength of the belts is above 7.2 KN
- Kidy Safe complies with the European flammability standard EN1021-1
- Storage temperature from -30c to 70c.
- Kidy Safe is resistant to vibrations transmitted by the ambulance or possible hits.
- The materials used are compatible with biological tissues, cells and body fluids, taking into account the intended purpose of the product.
- The design allows an easy handling and minimizes contamination of the product by the patient during use.
